

Car phone holder with wireless charger GARI

Code: **09158-02**

Price: **€7.98** Net

The gravity smartphone holder for a vehicle with a wireless charger is a great solution for vehicle users who want to be free from cables. It is enough to put the phone in the holder and the phone will start charging automatically if it has a wireless charging function. The charger has the power of 15 W which ensures faster charging. When the phone is in the gravity holder, the pressure force causes the arms to tighten and the device is effectively secured against falling. The holder fits phones with a width of 65-88 mm, the phone should not be in the case.
